## LIBRARY WILL BORROW FUNDS, BUILD ANNEX

Hard pressed for space for a rapidly growing book collection and for expected additions to the staff, the board of directors of the Adams County Public Library Friday evening authorized a \$40,000 addition to the main library building on E. High St.

The annex will include a two-story stack room and bookmobile garage, and the remodeling of the stack room and garage space added at the rear of the library several years ago.

The board agreed to finance the addition by borrowing \$40,000 with plans being made to conduct a capital funds drive for this and other planned expansion of the library building.

### NEED COORDINATOR

A bookmobile and 5,000 volumes are being added to the county library under terms of an agreement for a rural library service demonstration project to be conducted here with federal and state funds. One of the problems the library faces currently is to find a professionally trained coordinator for the library service project.

The action on the building project was taken after Attorney Donald Oyster presented a report and recommendation from a subcommittee on library planning. The recommendation was adopted unanimously by the board. Architect John B. Hamme, York, will be asked to prepare working drawings as soon as possible so that bids can be asked.

### BUYING NEW BOOKS

President H. Thomas Pyle presided at Friday's meeting with seven directors in attendance. The librarian, Mrs. Mary S. Wilson, reported book gifts as memorials to Zula Bowman, Blanche Deatrick, Mrs. Kathryn Fogd and William B. Wilson.

Monthly reports showed book loans in May totaled 5,622 and the bookmobile traveled 238 miles. There was a \$200 donation from the McSherrytown school district. Bills for the month totaled \$4,338 including \$2,614 for new books.

The board will meet next on July 6.

## Lightning Kills One And Starts At Least Two Fires

By THE ASSOCIATED PRESS

Lightning killed one person and started at least two fires Friday as heavy thunderstorms hit much of eastern Pennsylvania.

Patrick Murray, 19, of Selinsgrove, was killed while playing golf at Susquehanna Valley Country Club. A companion, Jeffrey Nyhart, 17, Sunbury, was admitted to a hospital for observation.

Authorities said lightning struck down young Murray as the two sought shelter from a rain storm under a tree.

At Sassamansville, near Pottsville, lightning struck St. Paul's Evangelical Lutheran Church Friday night starting a fire that burned out the building's inside and left only the brick walls standing.

### \$250,000 DAMAGE

Firemen estimated damage at \$250,000. No one was hurt, but a confirmation class had left the church just minutes before the lightning struck during a heavy thunderstorm.

Thunderstorms also struck in the Harrisburg area in late afternoon. In Susquehanna Township lightning touched off a barn fire which killed several pigs and destroyed farm machinery.

The two-story structure, on property owned by Miss Dorothy Pozzo, collapsed. Two dozen head of cattle were saved. There was an immediate estimate of damage.

The western part of the state enjoyed cool but cloudy weather most of Friday, with no storms or damage reported.

The forecast for today was for sunny skies and rising temperatures in the east and central sections and some cloudiness in the west.

## TELLS CLUB OF GROCERY CHAIN

Richard E. Kunze, comptroller of the Charley Brothers Co., a voluntary chain of 140 "Red and White" grocery stores in eastern Pennsylvania, was the speaker Friday evening at a meeting of the CHM Club. The meeting was held in the cafeteria of the Biglerville plant of the C. H. Musselman Co.

Kunze showed slides to illustrate his talk on the methods of marketing food products employed by the Charley Brothers Co.

He said the "outstanding growth" of his company has been due to "efficiency of operations and service to the members stores." He said "advertising plays a very important part in distribution." Noting that his company's operation is based on a high rate of turnover of food products offered, he said that "high rate of sales is achieved by consumer demand made possible through advertising."

In closing, he observed that "each individual should ask himself one question: 'Are you a solution or are you a part of the problem?'"

Harry Gageby, chairman of the program committee for the CHM Club, introduced the speaker. The talk followed a brief business session at which President John C. Brown officiated. Refreshments were served following the meeting.

## Storm Batters East Berlin Area

A wind, electrical and rain storm that residents described as "one of the worst in years" swept over East Berlin Friday evening about 8:30 o'clock, cutting off electrical power to parts of the community, downing trees and causing minor damage to buildings. Gardens were beaten by the wind and rain and some sections reported hail accompanied the storm which broke soon after dusk.

## Daring Pilot Defies Death

EDWARDS AIR FORCE BASE, Calif. (AP)—X15 pilot Bob White, skirting the fringes of space, deliberately tilted the nose of the stubby-winged rocket plane higher than the tail and plunged back into the atmosphere at 3,750 miles an hour.

He did it to test one possible way of slowing the descent of future space craft.

Eight engineers on the ground crossed their fingers Friday, aware the drop from 129,000 feet was the most hazardous re-entry maneuver yet attempted in the pioneer craft. The slightest error or mechanical failure, they said, could have jerked the X15 out of control.

White landed successfully and said: "I was quite pleased with the plane's stability. I believe we could do it at a slightly higher angle if necessary."

## ANNUAL MOOSE PICNIC SUNDAY TO DRAW 2,000

More than 2,000 members of the local Moose lodge and their families, are expected to take part in the annual picnic to be held by the Moose Sunday at the South Mountain Fairgrounds near Ardentville.

The affair is one of two special outdoor programs held for the Moose members during the summer. The annual crab feed will be held August 15 at the former CCC camp on W. Confederate Ave. Governor Herring said the new Moose farm will not be ready for this year's outdoor events but it is hoped that by 1963 the facilities will have been constructed there for outdoor activities.

Starting Friday, members of the lodge began tearing down an old storage building at the rear of the Moose Home on York St. with the materials being moved to the new Moose farm off the Lincoln Highway east of here. When the storage building has been removed, the area will be turned into additional parking facilities for the Moose.

## Red Guards Lure 2 Girls Into Trap, Kidnap One, Shoot The Other Fleeing

By GEORGE BOULTWOOD

BERLIN (AP)—Lured by a friendly voice, two teen-aged West Berlin girls walked into a Communist trap Friday night. East German border guards kidnaped one, shot the other.

It was the third serious shooting incident along West Berlin's uneasy border in 10 days. West Berlin police said the two girls, both 17 and identified only as Ursula and Karin, had approached the border separating Communist East Germany from the American Sector borough of Lichterfelde.

Presumably the girls intended to wave to or speak to friends in the Red sector. Friendly East German guards often aid such meetings, either actively or at least by turning the other way.

## 2 BOYS ADMIT ROBBERY IN FRANKLIN CO.

POMPTON LAKES, N.J. (AP)—Two young men were arrested by state police of the Pompton Lakes barracks Friday in connection with a holdup at a Chambersburg, Pa. market on May 18.

The two are John R. Byrne, 19, of Little Falls, and Harold A. Walsh, 22, of Bloomingdale.

Police said both admitted their part in the robbery. They were being sought by Pennsylvania state police.

Byrne, who was arrested at his home, waived extradition and is being held in the Passaic County jail, Paterson, waiting transportation to Chambersburg.

Walsh was arrested at Chilton Memorial Hospital, Pompton Plains, where he has been confined with a broken leg following a motorcycle accident about a week ago. He was taken to the Morris County jail, Morristown, and was scheduled for an extradition hearing Monday.

Police traced the pair after someone in Chambersburg noted the license number of Byrne's car, which allegedly was used in the holdup.

State police in Chambersburg said \$469 was taken in the robbery. The suspects face a hearing on the robbery charge before a justice of the peace in Chambersburg, state police said.

## Lecture Pair For Littering Beach

Two juveniles were brought before Justice of the Peace John Whitman at 12:45 o'clock this morning charged with throwing beer bottles on the beach being developed at Natural Dam by a group of residents of the area headed by Fred Green.

Green brought the boy and girl, both from Maryland, before the justice who lectured the two on the care of property made available to the public and warned them to stay away from the Natural Dam recreation area in the future. He added that the parents of the two will be notified.

Great improvement has been made to the Natural Dam area, including establishment of a beach by placing sand along the side of the stream, cleaning of the channel, placing of picnic tables, and improvement to the natural rock part of the dam by the placing of additional concrete areas to give a greater depth to the water, plus the placing of lights for night use. The committee supervising the establishment of the recreational area has been busy halting depredations which would prevent continued public enjoyment of the area. This spring quantities of beer bottles and other material which might cut or injure was removed from the stream preparatory for the summer season. Justice Whitman said the hours established for use of the beach are from 6 a.m. to 11 p.m., and everyone is to be "off the beach" after 11 p.m.

Both those robberies took place as the victims left branches of the First Pennsylvania Banking & Trust Co. In both robberies the victims were forced to get into the bandits' who looted them at deserted spots.

Police say the descriptions given by the victims indicate that at least one man was involved in both holdups.

In Friday's holdup, Richard Carpenter, 19, told police he was accosted by a gunman minutes after he left the bank with the payroll for a sheet metal plant. He said they left him, bound and gagged, at Juniata Park golf course, where golfers found and freed him.

commitment of support called for by changes in time and circumstances and most importantly by the success and value of that which was dedicated to use at some earlier point.

"The Schmucker Memorial Library was first opened on December 1, 1929, having been built and equipped at a cost of \$124,831.31. This outlay was part of a larger program of improvements completed at that time which totaled \$700,000. For those to whom the year 1929 signified something other than the close of the Fitzgerald era, I would observe that the history of the college reports that \$66,828.33 was received from the million dollar Endowment and Expansion Campaign to offset \$700,000 expenditure and the remainder has been provided in

various ways." The brochure which you have provides intimate facts about the present structure and I leave to you some of the comparisons which can be drawn between the old and the new.

"The act of rededication which we now perform is of course symbolic. Those who use this facility will sense more keenly than we the meaning which this library will have. But nevertheless we mark with deep appreciation this addition to the apparatus of scholarship in this college and rededicate the Schmucker Memorial Library, even as we commit the efforts of the college, to presentation and transmission of knowledge."

## HEALTH RISKS MADE GREATER BY FALLOUT

WASHINGTON (AP) — Fallout from nuclear testing has slightly increased the health risks faced by Americans, the Federal Radiation Council says.

Birth defects in future generations are likely because of radiation released by test detonations, the council said in a report made public Friday. And, for persons now alive, the report said, fallout may mean an increased danger of leukemia or bone cancer.

But it added: "Compared to the number of these same adverse biological effects occurring wholly apart from testing, the additional cases that might be caused by testing are a very small quantity. SOME GENETIC EFFECTS

"We expect there will be some genetic effects: other effects such as leukemia and cancer are more speculative and may not occur at all."

If fallout causes additional cases of leukemia, the council said, the individual American stands at the most a chance of 1 in 100,000 of developing the disease because of it. And if some cases of bone cancer can be blamed on fallout, his maximum risk is estimated as 1 in 300,000.

As for hereditary damage, the maximum risk for an infant born

## TO TALK HERE SUNDAY AT 3

All residents of the Gettysburg area are invited to the free lecture "Is This the World's Last Generation?" to be held at Kingdom Hall on Queen St. Sunday afternoon at 3 o'clock. The address, by H. P. Woodworth, circuit supervisor of Jehovah's Witnesses, will conclude a week of special activity in which local members of the congregation

H. P. WOODWORTH

were aided in their public teaching program by personal instruction and group home visitation discussing the subject of God's purpose for man.

"There were quite a number of very kind people whose desire is for better world conditions with whom we talked," Woodworth said, "and the week of activity was a certain success."

It was also announced this week by Harold E. Cluck, presiding minister, of the appointment of Raymond W. White, Gettysburg R. 4, to the full-time preaching work in this area.

This evening at 8 o'clock the service will feature an audience question and answer period on the Bible and related subjects. Following the lecture Sunday, an abbreviated Watchtower study will be held after which Mr. Woodworth will deliver his final talk to the congregation.

PITTSBURGH (AP) — Judge Loran L. Lewis has denied Friday a new trial for Istvan Tomcsik, a 39-year-old former Hungarian freedom fighter who was convicted of strangling the mother of three children.

A jury had convicted Tomcsik last June of first-degree murder in the slaying of Mrs. Marilyn McManus, 35, of Brookline, who had been living with him for about six months.

BERLIN (AP) — Hermann Baden, president of Jewish communities in East Germany, died Wednesday at 78. Baden, who lived in the city of Halle, was released from a concentration camp in 1945 after imprisonment by the Nazis. His death was announced Friday by the official East German news agency.

to Americans now alive is one in a million, the council said.

Data on which the report is based were turned over to President Kennedy before he gave the signal for a U.S. atmospheric test series now under way in the Pacific.

## CITE PRESENT RATES

The report does not cover fallout produced by these tests. Its estimates are based only on fallout released through the end of 1961.

By genetic damage, the council said, it meant congenital malformations, blindness, deafness, muscular dystrophy, and mental diseases.

In publishing its estimates on fallout hazards, the council pointed out that the current leukemia rate in the United States is 7 cases per 100,000 persons and that of bone cancer is 1.1 per 100,000 persons.

## Sypher Is Named To MECO Office

Raymond E. Sypher, Temple, Pa., has been named secretary-treasurer of the Metropolitan Edison Company at a meeting of the company's board of directors.

He succeeds Ernest L. Barth, 65, Mount Penn, who resigned the secretary-treasurer post May 30 concurrent with his retirement after 30 years of service with the company. Barth also was a MECO director.

At the same time, William R. Snyder, MECO president, announced that John A. Dunlap, Shillington, comptroller of Metropolitan Edison, has been named to the company's board of directors.

Sypher was graduated from LaSalle Academy in New York City and joined a predecessor company of General Public Utilities Corp., of which Metropolitan Edison is a part, in 1925. He began his career with W. S. Barstow and Company, operating and financial managers of the General Gas and Electric Corp., in that year and continued with them until GGECE was acquired by Associated Gas and Electric Company in 1929. He worked in that firm's wholesale securities department from 1929 to 1935, and from 1935 to 1939 he was a traveling auditor on the staff of Utility Accountants and Tax Consultants. In 1939, he was transferred to Reading as an accountant. From 1946 to 1956, he also served as assistant treasurer-assistant secretary of the Northern Pennsylvania Power Company until its merger with Pennsylvania Electric Company. He is a member of the Muhlenberg Twp. Authority, the Muhlenberg Twp. Planning Commission, the Reading-Berks Chamber of Commerce and the Greater Berks Development Fund. He and his wife, Anna, have a daughter, Mrs. Regina M. Yoder.

MONTGOMERY VILLE, Pa. (AP) — Joseph T. McGorry, 28, Lansdale, was killed Friday, police reported, when his car swerved on Route 202 and collided with another car.

WASHINGTON (AP) — The Federal Communications Commission received an application Friday from Arthur K. Greiner and Glenn W. Winter of Shippensburg, Pa., for a construction permit for a standard broadcast station, 1540 kilocycles, 500 watts, daytime, at Palmyra, Pa.

## URGES SOFTER FRENCH STAND

PARIS (AP) — Prime Minister Harold Macmillan is expected to urge President Charles de Gaulle today to soften his stand on Britain's entry into the prosperous European Common Market.

Britain's application for membership in the economic community was certain to get a full airing during the talks set to begin late today when Macmillan arrives for an overnight visit.

Negotiations going on in Brussels between Britain and the six Common Market members have advanced a step with British agreement to apply Common Market tariffs to industrial goods from three Commonwealth countries: Canada, Australia and New Zealand.

The goods now enter Britain under a lower preferential tariff system. De Gaulle has been reported opposed to any terms for Britain's entry into the economic community that would continue British economic preferences for the Commonwealth family.

The two leaders were expected to hash over other problems before Macmillan flies back to Britain Sunday.

## BERSERK MAN EMERGES FROM COMA, TEARGAS

PITTSBURGH (AP) — A mental patient who went berserk and killed a psychiatrist Friday was fighting his way back to consciousness today from a semi-coma, tear gas, and a large, self-administered dose of sedative pills, a hospital spokesman said.

The man, William Pola, 27, of nearby Wilmerding, made a voluntary visit to the Leech Farm Veterans' Hospital Friday afternoon, then suddenly pulled a gun and started pumping bullets into Dr. Daniel Thaw, 61. An autopsy revealed eleven bullet wounds in Thaw's body.

## VOLUNTARY PATIENT

When police moved in to capture him, Pola held them off with a volley of shots, wounding Patrolman Horace McDaniel in the leg. Police commandeered an armored car to close in and lob tear gas grenades into Thaw's office. Pola was captured there, unconscious.

Hospital officials said Pola, a former Marine corporal, had been treated at the hospital off and on since the Korean War. A voluntary patient, he was discharged from the hospital against the advice of doctors, including his victim, Dr. Thaw, April 19, they said, adding that Pola suffers from schizophrenia, a split personality.

FRANKFORT, Ky. (AP) — Gov. Bert T. Combs engaged in some underhanded nonsense Friday, demonstrating his pull by winning a mauling contest against State Sen. Alvin Kidwell of Sparta.

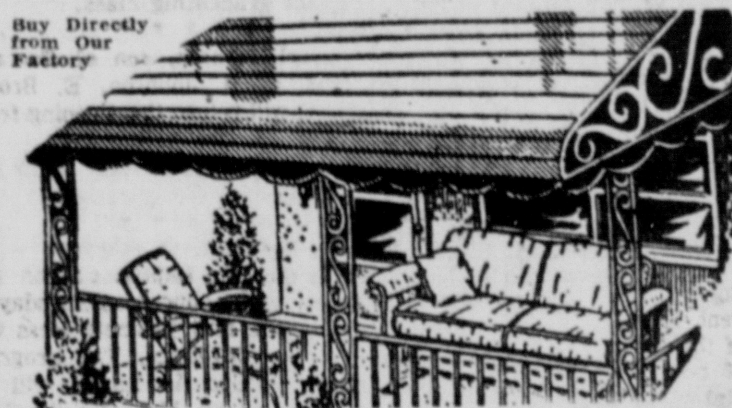

The stunt kicked off Dairy Month in Kentucky.

After three minutes Combs emerged with a pail of milk weighing 6 pounds 5 1/2 ounces compared to a mere one pound, 8 ounces for Kidwell.

Out Of The Past  
From the Files of the

The Gettysburg Times

TEN YEARS AGO  
Do You Like Babies? In Paris it's the Bois de Boulogne — in London it's Kensington Gardens — in New York it's Central Park — but in Gettysburg it's the smart thing for babies to be seen in Lincoln Square. Any baby who is anybody will make it a point to put in an appearance as soon as possible. Take a stroll around the historic Square and see for yourself! You may run across an interesting little boy like "George" Eberhart, who will be two in June, seriously studying the General Meade Silsby steam fire engine on public display downtown. He is also interested in "moo cows," "barns" and "choo choo" trains. He will probably grow up to be a fire chief — farmer — or engineer. George, who has blonde hair and blue eyes, is the son of Mr. and Mrs. Richard C. Eberhart, 60 Chambersburg St. Or you might find yourself gazing into the dancing blue eyes of Paula Hayes, clutching a Japanese doll dressed in native costume sent to Paula from the orient by her father, Lt. Richard D. Hayes, who is stationed in Okinawa. Paula, who is 20 months, will show you her pete sister, Pamela Jane, who is just over three months, and her mother, Mrs. Hayes, who lives with the children on York Street. A cowboy may greet you in bronco buster fashion and you will look under the sombrero to discover a four-year-old boy named Johnny Ramos, a first class sharpshooter. His parents are Mr. and Mrs. George Ramos, York St. Another little girl who likes to out for a sun tan is Susan Welshonce. She is the daughter of Mr. and Mrs. John A. Welshonce, 133 Chambersburg St. You can see Susan on any bright day looking as pretty as Alice in Wonderland in her blue coat and bonnet as blue as her eyes and her face framed with soft brown ringlets. Cherubie Charlie Frasch will appeal to your sense of the esthetic with his petal-like skin and long dark lashes. Not quite a year old, he is the son of Mr. and Mrs. Herman Frasch, East Broadway. Doll-like Kim Hughes, immaculate as a rain-washed April morn, will surely steal your heart away with those long curling lashes. Kim lives with her parents, Mr. and Mrs. Philip Hughes, on Springs Ave. You are fortunate indeed if you should meet "Jerry" Hartzell, aglow from head to toe with merry mischief dancing in his velvet brown eyes. Jerry, who is two, is the son of Mr. and Mrs. Mahlon "Jim" Hartzell. His diminutive, dainty sister, Mary Anne, with the elfin like face, is addicted to flowers. She ate the lilies on her Easter bonnet. Take a walk some afternoon and see for yourself.

SEA HUNGER  
Always thought I'd like to be Master of a ship at sea. Never watch one setting out, leaving me upon the shore, But I turn my face about, Saying: "Left behind once more!" Once again I've heard them say: "Little boys at home must stay!"

There is something of the sea Keeps alive the boy in me. Dear I've thought him many a year And forgotten all about But he seems to reappear When the ship is setting out. Anchor chains and hawsers slack Bring that little fellow back.

As he stood long years before, Still he stands, upon the shore As some great ship noses out, Hearing older people say: "Bravely turn your face about— Little boys at home must stay!" Still he waits and seems to be Fascinated by the sea.

Mr. Held was ordained on May 18, 1922, in the Northumberland and Susquehanna Synod, having graduated from the seminary of Susquehanna University. At the conclusion of the special service John Harner Sr. presented the Rev. Mr. Held with a large basket of flowers and a sum of cash representing each year he has served, on behalf of the congregation. The Rev. Mr. Held has been serving his present charge six years. He is married to the former Nelle Lawrence and they are the parents of five children.

Concludes Distinguished Administration: Under a large photograph of Dr. and Mrs. Henry W. A. Hanson in their "White House" living room appeared this tribute. The longest presidential administration in the one hundred and twenty years history of Gettysburg College comes to a close one month from today — June 30, 1962 — with the retirement of Dr. Henry W. A. Hanson, whose illustrious regime started July 1, 1923. As the seventh president of Gettysburg College, formerly Pennsylvania College, Dr. Hanson served nine years longer than his nearest predecessor, the late Dr. Harvey W. McKnight, one of the three graduates of the school to serve as its president. He was graduated in 1865, occupied the executive chair from 1884 to 1904, and was his alma mater's fifth president. Two other graduates served as acting presidents. In terminating his distinguished services Dr. Hanson leaves behind an amazing attainment for building, expansion, high scholastic standards, a deeper appreciation of the Christian faith, an enrollment double that of 29 years ago, a larger faculty, a heart-warming

Today's Talk

PRIDE  
We all have a great many false notions, and some of them we never get rid of. Perhaps pride is one of them, at least it is with some.

Like everything, pride may be a powerful aid to us if rightly used. But there are so many of us who allow pride to make us very unhappy, as well as distributing this unhappiness to many others.

Pride can make us very foolish and silly. I know a young lady whose pride — so called — is so great that a little disagreement with the man she was to marry may ruin the life of both. Neither will give in far enough to go back where each started. So they get nowhere and maybe never will.

I like the idea of "swallowing" your pride. Life is so brief anyway. During the past few years several of my close personal friends unexpectedly passed off the stage and retired behind the dark curtains of mystery and silence.

Our greatest pride should be in so training our powers that they willingly obey when we determine upon the magnanimous thing.

Many a father and son, or Mother and daughter, are unhappy at this moment because of some false pride. How easy to nevermind! And when you are big something fine and lasting, somehow, is cemented upon your life.

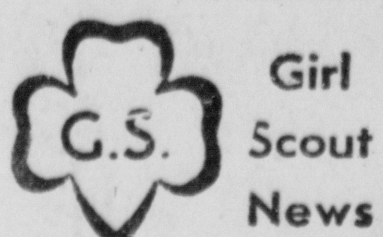

It doesn't take half as much courage to nurse a wrong as it does to "give in" and bring about its cure. In fact, only cowardice encourages a mistaken pride.

A heart is a very delicate and intricate affair. It is more easily injured than any other organ of the body — because it has spiritual value. Therefore what a cruel thing it is to hurt another, or through pride, to cause that person to suffer.

Relationship between the historic community of Gettysburg and the college, and 29 years of unselfish devotion to the school, the church and the community. There is no greater milestone than to be loved and admired by one's fellow man. This Dr. Hanson has achieved in no mean proportion. His success as an administrator is well known throughout the college field. As a speaker (he has always been in heavy demand throughout eastern America) he has no peer, and the eloquence of his philosophy has inspired thousands upon thousands of listeners in all walks of life. His firm handshake, the warmth of his friendship and his sincere fellowship plus the pleasant memories of his long service in Gettysburg will be long remembered and cherished.

County Couple Weds: Miss Beatrice Mae Benner, daughter of Mr. and Mrs. J. Milton Benner, R. 1, became the bride of James Hardy Harness, son of Mr. and Mrs. Hunter Harness, 46 South St., in the Gettysburg Presbyterian Church Saturday afternoon at 2:30 o'clock in the presence of the immediate families. After the ceremony a reception was held at the Shelter House. Upon the return from a week's honeymoon they will reside at 28 Chambersburg St. The bride is a graduate of Gettysburg High School and presently employed by the C. H. Musselman Co., of Biglerville. ROMAGNA IS FIRED FROM WHITE HOUSE

By WHITNEY SHOEMAKER  
WASHINGTON (AP)—Jack Romagna, who has taken down the major declarations and minor utterances of four presidents, has been fired as official White House reporter.

White House press secretary Pierre Salinger announced Friday that Romagna "has left the employ of the White House" and was being replaced by a Washington reporting service.

Romagna said he had got the word after arriving at the White House in the morning for what he thought was a lifetime job. Now, he said, his plans are unclear.

There have been signs in recent months of cooling relations between the White House press office and Romagna.

Several weeks ago he transcribed remarks President Kennedy delivered by telephone to a conference of mayors in Miami Beach, Fla., and noted in the heading that the President had spoken from the White House swimming pool.

This disturbed several staff members and, after an initial distribution of copies to newsmen, a new supply was prepared, omitting reference to the swimming pool.

Aides said that because of a change in timing, Kennedy happened to be in the pool at the time he was expected to speak.

IKE COMES TO DEFENSE OF G. M. HUMPHREY

WASHINGTON (AP)—Former President Dwight D. Eisenhower says he is ready to be crucified if George M. Humphrey, his secretary of the Treasury, ever did a crooked thing.

Eisenhower came to Humphrey's defense Friday after Sen. Stuart Symington, D-Mo., had said his Senate armed services subcommittee would try to find out if companies headed by Humphrey had made exorbitant profits on stockpiled nickel.

Government contracts with the companies were negotiated during the Truman administration and were signed in January 1953, shortly before Humphrey joined the Eisenhower Cabinet.

I WENT THERE EARLIER  
Eisenhower was asked for comment by newsmen after holding a Republican strategy session with eight of his former Cabinet members. Humphrey included, and with congressional leaders.

"If Secretary Humphrey ever did a dishonest thing, then I am ready to mount on the cross, and you can put the nails in and the spear," Eisenhower said heatedly. "He never did a crooked thing."

The former president also defended his tending of the government's stockpile of critical material and said operations were carried on under laws "enacted long before I got there."

PLAN PUBLIC HEARINGS  
There was no immediate comment from Humphrey.

Symington said his subcommittee expects to be ready for public hearings on the nickel contracts by the end of the month. The companies' records have been subpoenaed, and Chief Counsel R. C. Coburn said the former secretary may be called as a witness.

The companies concerned are the M. A. Hanna Co. of Cleveland, which Humphrey heads, and two subsidiaries, the Hanna Mining Co. and the Hanna Nickel Smelting Co.

MORGAN FIRED  
In other developments Friday: 1. The Office of Emergency Planning, which carries on stockpiling operations, fired John D. Morgan Jr. as a consultant and

vice and Romagna.

Several weeks ago he transcribed remarks President Kennedy delivered by telephone to a conference of mayors in Miami Beach, Fla., and noted in the heading that the President had spoken from the White House swimming pool.

This disturbed several staff members and, after an initial distribution of copies to newsmen, a new supply was prepared, omitting reference to the swimming pool.

Graduates

Miss Hannah Jean LeVan, daughter of Mr. and Mrs. C. LeRoy LeVan, R. 1, will graduate from Penn Hall Preparatory School, Chambersburg, Sunday. The graduation exercises will be held at 10:30 a.m. with the address given by the Rev. Dr. Robert V. Mass Jr., president of the Lancaster Theological Seminary. Miss LeVan will enter the Southern Seminary, Buena Vista, Va., in September.

asked the Justice Department to look into what it termed an apparent conflict of interest violation brought out in the investigation.

This referred to testimony that Morgan had drawn \$10,000 in pay from the Climax Molybdenum Co. as a consultant on its contract in 1957, the same year he drew \$3,000 in consultant fees from the government.

In Florida, Morgan, 41, who heads the Daytona Beach Junior College Science and Mathematics Department, said he was relatively surprised by his ouster and would have no comment "until I see the record on the case."

GOING TO FIND OUT  
2. The subcommittee heard testimony that one government agency had tried in vain to persuade another to halt a \$13.2-million stockpile purchase of synthetic cryolite for which the government allegedly had no need.

3. Symington said the subcommittee is determined to find out why the Calumet & Hecla Co. of Chicago reaped a \$5.5-million profit as a result of being released from a contract to deliver copper to the government.

Symington said the company received more than \$24 million for the copper it had diverted to industry. \$5.5 million in excess of what the government would have paid had the metal been delivered to the stockpile.

A company spokesman said in Chicago that the company will present its version in a letter next week to stockholders.

King Who Bolted Throne And Commoner Wife Will Observe 25th Anniversary

By CHARLES L. WEST  
NEW YORK (AP)—At a small shipboard champagne dinner party Sunday the only king ever voluntarily to abdicate the throne of Britain and the woman for whom he did it will celebrate their silver wedding anniversary.

"We made it last," the Duke and Duchess of Windsor responded, almost in unison, just before embarking Friday on the liner United States for Europe. They had been asked whether they recalled predictions that their marriage would be short-lived.

On June 3, 1937, in a friend's chateau in France, the man who had ruled Britain for 324 days as Edward VIII and Wallis Simpson were married.

LOST CROWN, FORTUNE  
He gave up the crown and an income of more than \$3 million a year to marry the twice-divorced American commoner. His love brought him a life of wandering from one fashionable location to another—Paris, the Riviera and New York—punctuated only rarely by an unofficial visit to London, by etc oniaLn nvlftstou.iiip

"Are we happy?" he repeated a reporter's question. "We certainly are. Just look at us. We look happy, don't we?"

Both were smiling. They did not discuss the events of their romance, which shocked a nation Dec. 2, 1936. The British press had imposed self-censorship on reporting the courtship, and only when it had reached the crisis—give up the throne or Mrs. Simpson—did the British people learn what the rest of the world's newspaper readers had known for some time.

SYMBOL OF UNITY  
The public and political reaction, the duke noted in his memoirs several years later, left "a community riven and divided." But the crown is a symbol of "unity and voluntary allegiance," he wrote.

"It is for this reason that I reject the notion put forward by some that, faced with a choice between love and duty, I chose love," he added. "I certainly married because I chose the path of love, but I abdicated because I chose the path of duty."

"I did not value the crown so

lightly that I gave it hastily away. I valued it so deeply that I surrendered it rather than risk any impairment of its prestige."

ANNIVERSARY CAKE  
The luxury liner will be about midway on its voyage from New York to Le Havre when the duke and duchess sit down for the dinner party at the table customarily reserved for them on their frequent crossings. It is situated in the 40-seat restaurant on the crown deck. The United States' chef is preparing a surprise anniversary cake.

They are traveling to Paris, where they own a town mansion and a country estate. Later this month each will celebrate a birthday, her 66th June 19 and his 68th four days later.

"The success of a marriage depends on temperament," the duchess said before sailing. "We share our worries and discuss them. There are many stumbling blocks, and you have to surmount them."

"You need a great deal of patience and understanding of each other's weaknesses."

CBS Is Fighting Postal Rate Jump

NEW YORK (AP)—The Columbia Broadcasting System, which broadcast its stand against postal rate increases, made arrangements Friday for Postmaster General J. Edward Day to express his opposing viewpoint over the network.

CBS President Frank Stanton wired Day that his statement will be taped next Wednesday for broadcast at subsequent dates. It will be aired "in the same time periods as CBS editorial carried on CBS-owned television and radio stations."

BEAR IN CITY

WILMINGTON, N.C. (AP) — A skinny black bear stalked downtown Wilmington for several hours early Friday before a single shot fired by the city dog catcher ended its life.

Where the bear came from and how it got on the fringes of the business district remained a puzzle.

## Zettle Urges Farmers To Cut Alfalfa Hay Early

By FRANK S. ZETTLE  
Adams County Farm Agent

Cut your alfalfa hay really early this year! If you've done a good job of liming and fertilizing your alfalfa stand, take off that first crop at the bud to one-tenth bloom stage and you'll be taking fullest advantage of your potential high-quality feed. Alfalfa cut at this early stage will run 65 to 68 per cent total digestible nutrients, and with good fertility the stand won't be hurt by early cutting. In fact,

FRANK S. ZETTLE

total annual yields of digestible nutrients will probably be highest when you take the first cut off at this early stage. However, to make sure your stand is long-lived, let your later cuttings reach the bloom stage of growth.

That's for alfalfa, and now a word on grass hay. For highest quality forage, harvest all your grass when the heads are just emerging from the boot. Dry matter yields will be lower at this stage, but the feeding value of your forage will be high. And for maximum yield of feed from clover, harvest it in the early bloom stage.

**DELAY FIRST CUTTING**

For a new seeding of alfalfa, it may be well to delay first cutting until the plants reach nearly the half-bloom stage. This will

give those young plants a better chance to build up food reserves before harvest.

In other words, harvest your established alfalfa stand first and your new seedlings last. This will assure high yields of quality forage and also help your new seedlings become well established. And in any event, early cut hay is the best hay.

Last year Pennsylvania ranked 25th among the states in live-weight production of cattle and calves, 18th in hogs, and 30th in sheep and lambs.

Liveweight production means the total number of pounds produced on farms. This includes the weight that was gained by the animals on hand, bought, or born during the year.

Keystone State farmers produced 418 million pounds of cattle and calves, 11 million pounds of sheep and lambs, and 159 million pounds of hogs, according to the Economic Research Service.

**GOOD HOG PRODUCER**

Texas leads the states in live weight of cattle and sheep produced, and Iowa is the outstanding hog producer.

National totals for liveweight production last year were 29,538 million pounds of cattle and calves, 20,216 million for hogs, and 1,638 for sheep and lambs.

In event of enemy attack, it is probably that only a small percent of our croplands would receive severe fallout, with the heaviest intensities in relatively small, scattered areas.

If the land was needed in crop would be necessary only if it had

been seriously contaminated with strontium 90. Other biologically important decay products are not of great concern because either they are not taken up from the soil by plants, or they are taken up in much smaller amounts, or they have such short "half lives" that decontamination is not necessary. Strontium 90 has a very long "half life" — 28 years. This means that half of its radioactivity will decay in 28 years, half of the remainder in the next 28 years, and so on. Strontium is similar to and behaves much like calcium. It is believed large quantities of it might cause bone tumors or leukemia in man or animals, but its exact effects are not known. In heavy fallout areas, temporary land denials might be necessary until strontium 90 analysis of the soil could be made, about six months to a year after fallout had settled.

**LOW CALCIUM CROPS**

The amount of crop contamination with strontium 90 would depend markedly on the available calcium content of the soil. Strontium uptake could be reduced by growing crops with low strontium-calcium concentrations. Potatoes, corn, sugar and oil crops would be suitable low calcium crops to grow on heavily contaminated lands.

Crops producing high calcium foods should be grown on the less contaminated land. Land also could be diverted from food production and used to grow cotton, fiber, flax, castorbeans, timber or other nonfood products. Land formerly used for dairying might be diverted to beef or other meat animals, because little of the strontium would be retained in the meat.

Liming of soil can reduce the strontium uptake by plants as much as 50 per cent. Best results from liming are possible in infertile or highly acid soils. They are low in available calcium and the plant's need for calcium leads to absorption of the chemically similar strontium. Liming would have little effect on strontium intake in soils containing ample available calcium.

**DEEP PLOWING**

Decontamination by deep plowing would be aimed at turning the radioactive surface soil under to a depth of 18 inches or more, or below the root zone of the plants to be grown. In shall rooted crops, such as grasses and many vegetables, deep plowing might reduce the uptake of strontium to about half that under normal cul-

## MARYLAND TO ADD 19 MORE HOUSE SEATS

By HEB THOMPSON  
ANNAPOLIS, Md. (AP)—Maryland has on the lawbooks today its first major realignment of legislative seats since 1867. It took a court order and a strong whip-hand by the Democratic administration of Gov. J. Millard Tawes, but the legislature responded to both Thursday night and voted 19 more House seats to four big suburban counties and two districts of Baltimore City.

The bill was enacted 38 minutes before a constitutional deadline of midnight May 31 for regular bills and was signed into law by the governor 10 minutes before June 1 came up on the calendar.

It is believed to be the first reapportionment bill passed by a state legislature since the Supreme Court ruled March 26 that metropolitan residents are entitled to court determination of complaints against discrimination in legislatures.

**ACTED RELUCTANTLY**

The Maryland General Assembly, with small counties holding majorities in both houses, acted reluctantly. It was called into special session by Tawes last Friday after the Anne Arundel County Circuit Court had invalidated a provision of the State Constitution which had apportioned House seats since 1867.

After continuous wrangling, the assembly wound up taking a plan submitted by Tawes opening day.

The bill, passed by a one-vote margin in the Senate and seven votes to spare in the House, is a stopgap measure to replace the void in the State Constitution and expires in 1966.

It will temporarily increase House membership from 123 to 142 with the new seats to be filled in the November 1962 election.

**142 HOUSE SEATS**

The legislature agreed to a suggestion by the governor that it leave to the 1963 General Assembly the task of a more permanent reapportionment plan, which will take away seats from less populous counties.

Baltimore County, the major suburb of Baltimore City, will receive seven of the new seats to boost its House membership to 13. Montgomery and Prince George's counties on the outskirts of Washington, D.C. will receive four more each, giving them delegations of ten.

**OTHER CHANGES**

Baltimore City's growing Third District will receive two more for a total of eight. Anne Arundel County and Baltimore's 5th District will get one more each for totals of seven.

Candidates will be named by party central committees to run for the new seats in the November election.

This will give metropolitan areas 55 per cent of the seats in the House, where they had only 49 per cent before. They have 76 per cent of the state's population. Their working majorities are to increase in 1966 more in line with population.

The court did not disturb the 29-member Senate, where the state's 19 smaller counties hold 66 per cent of the seats, because of geographical distribution. The question of Senate apportionment is being appealed.

loped veil of silk illusion and she carried a Bible bouquet of white rosebuds.

The maid of honor was Miss Linda Jayne Weaver, Tower City, Pa., and the bridesmaid, Miss Kathy Joan Trexel, Somerset, Pa. Both attendants were attired in street-length dresses of peacock blue organza over maize taffeta, featuring a draped cowl neckline, cap sleeves and a small velvet bow at the waistline. They carried bouquets of yellow roses and carnations.

**RECEPTION FOLLOWS**

The best man was Dale Seburn, Hagerstown. Roland Hobbs, Baltimore, served as usher.

The bride's mother wore pink lace. The mother of the groom wore aqua linen. Both wore white accessories.

Following a reception held in the Seminary dining room the couple left for a week's stay in the Poconos. The bride's going-

away outfit was a Nile green lace and polyester dacron dress featuring a high scoop neckline in front which fell into a V-back. It was complemented by a matching lace jacket. Upon their return they will spend the summer in Hagerstown.

**BOTH ARE STUDENTS**

The bride is a graduate of Turkeyfoot Valley Area High School and will be a Senior next fall at Gettysburg College, working toward a Bachelor of Science degree in Music and minoring in art. She is a member of the college choir, SCA, MENC, and a member of Gamma Phi Beta sorority.

The groom is a graduate of Hagerstown High School, and of the class of 1960 Gettysburg College. He majored in business administration and while in college was choir soloist and manager in 1959-60. He was elected to membership in the Phi Beta Kappa honorary fraternity. He will be employed as an announcer of

WARK radio station in Hagerstown during the summer. Next fall he will resume his studies as a midlevel at the Lutheran Theological Seminary.

Guests were here from Ohio, Maryland, New Jersey, District of Columbia and Florida.

**GUTHION WAS HERE**

**"Guthion Boosted Our Profits 10%, Added 20% More Apples to Our Top Grade"**

—Mr. Kenneth McDonald, Stephens City, Va.

"Exclusive use of Guthion gave us previously unheard of results. Not only did we appreciably boost our control percentage, our profits gained 10% by adding more apples to our top grade. Guthion consolidated all our insect control measures into one convenient, easily applied material," stated Mr. McDonald, Manager of McDonald Orchards.

"Thirty per cent of our crop was threatened by leaf roller and nothing was stopping them. We switched to Guthion, and in four days its devastating kill-power was apparent. We cleared up leaf roller completely. Last year, even our Yorking apples gained a cent a pound because Guthion kept them insect damage-free. We've

had no russeting from Guthion, and we save up to 90 man-hours labor by eliminating special sprayings."

Guthion is a true single-chemical, all-season fruit insect control. From bloom to harvest, you use fewer cover sprays. Resulting lower labor costs and higher grade fruit make Guthion your lowest-cost-per-season insecticide.

Guthion's proven long residual action is safe to foliage and finish, cannot cause a build-up of soil residue. Guthion alone gives you the universal control that cannot be matched by any other type of program.

Order Guthion from your Farm Supply Dealer, today. It works!

MAYOR OF YORK IS UNDER FIRE

YORK, Pa. (AP)—Mayor John L. Snyder of York is under fire today for his stand opposing the relocation of Cuban and Chinese refugees in the area.

Snyder was criticized Friday in a sharply worded resolution passed 3-1 by the York City Council.

"We ... do not subscribe to Mayor Snyder's statements, nor do we accept it to be a reflection of the sentiment of the kind and charitable citizens of our community regarding the victims of present-day tyranny of the governments of Cuba and Communist China," the council declared.

The resolution was introduced by Council President Fred A. Schiding, a Democrat. Snyder is a Republican.

The lone Republican councilman opposed the resolution while a fourth Democrat abstained.

It all started last week, when Mayor Snyder told the council he didn't want Cuban or Chinese refugees in his town because "we're having a hard enough time finding jobs for our own people."

He also said he did not consider Cuban migrants as patriots.

"They'll have to look for support from someone other than me if they want to come here," he declared.

Chico Ruiz, Cincinnati Reds shortstop, is certain to be the topic of much conversation this season. The fleet-footed Cuban is 23 and batted .272 to help the Indianapolis team win the American Association pennant.

## June Brides Are Facing An Era Of Real Challenge

By MRS. HELEN D. TUNISON

Extension Home Economist June, the month of brides, is here again. What is the new homemaker of June, 1962, like? What is in her background that will influence her ability as a homemaker and mother? This is an era of challenge, change and anxiety and is she ready to make her home in it?

The average bride will be young, 18 or 19 years of age, and will have spent most of these years in a classroom. She was born during World War II or at the end of the long dreary depression. The world around her was in turmoil and her parents were living through a fearful chaotic period disrupting family life.

During the crucial first years of life, her parents might have been separated due to military service or long hours of employment. Both of her parents were not on hand to care for, guide and support her as she developed from infancy to childhood.

### MOTHERS WERE AWAY

Many mothers were away, too, at full-time employment outside the home and never did return. After a full day on a job, time to train a daughter for homemaking was not possible. The school, friends, magazines and clubs seemed to teach her in a haphazard manner about her eventual vocation—homemaking. She needs to develop strong values as well as have a real ability in handling household tasks. Preparation and study for homemaking takes place from infancy and carries on beyond the 50th wedding anni-

versary. Many opportunities are available to the June bride who wants to excel at her most important job and make up for some of the underlying problems.

Families can benefit from a change in vegetable eating habits. Change doesn't mean abandoning the bean and beet, the pea and potato, but it means using more of the vegetables not so well-known. Many of these are more power packed with food nutrients than some of the commonly used vegetables.

Whether they buy them or raise their own, families depend on vegetables to supply large portions of the daily requirements of vitamins A and C. In the home garden, a row of vitamin A-rich and a row of vitamin C-rich vegetables can help meet this daily quota. These vitamin-rich vegetables add zest and sparkle to everyday meals.

### GOOD VITAMIN SOURCES

\* Broccoli, spinach, tomatoes, kale and mustard greens are good sources of vitamins A and C. Excellent sources of vitamin A include carrots and sweet potatoes. When space permits in the garden, pumpkin and winter squash may be planted. Both vegetables are rich in vitamin A. Vitamin C-rich vegetables include cabbage, cauliflower, and green peppers.

For a dash of variety to the vegetable garden plant some of the new looseleaf head lettuce and endive. Both are excellent for fall salads.

Homemakers planning to preserve part of the garden produce must be sure to plant acceptable varieties for freezing and canning.

### CURTAINS, DRAPERIES

\* Curtains and draperies go a long way toward making a room attractive, but like many other furnishing items, curtains and draperies need proper care to keep up their appearance and lengthen their service. You can do a number of things to keep window treatments looking their best.

Try reversing curtains or draperies from side to side and from window to window. And if possible, reverse the ends. These slight changes will help insure even wear.

Arrange or anchor curtains and draperies so they won't blow or become torn when windows and doors are open. Weighing may

Heat is a rugged foe for most curtains and draperies. Protect them from strong sunlight and heat from the radiator. Dust and soil cause curtains and draperies to wear out quickly. ### ASK NEW TRIAL

BUTLER, Pa. (AP)—Attorneys for a 53-year-old grandmother convicted of embezzling over \$430,000 argued for a new trial Friday in Butler County Court before Visiting Judge Morgan Sohn of Beaver County.

They contended that the defense had insufficient time to prepare before Mrs. Mae H. Wheeler, former secretary-treasurer of the Butler Workmens Building & Loan Association, was brought to trial last June.

SMALLEST  
HEARING AID  
IN THE WORLD

WORN INSIDE  
THE EAR

SONOTONE has done it again with the "WISP-EAR," the world's smallest hearing aid, worn entirely in the ear.

It's cordless hearing — no cords down the neck, nothing behind the ear, nothing on the body. The new Sonotone snugly in the hollow of the ear. It weighs only 1/5th of an ounce (including tiny battery inside) and is so small it's hardly noticeable.

The "WISP-EAR" can help 7 out of 10 persons with hearing losses. Slips in and out of your ear so easily — ideal for those who "hear but don't understand." As small as a dime, as light as a nickel.

Here's better hearing from Sonotone in the remarkable modern way—the "WISP-EAR" worn inside the ear.

## ABC's Wide World Of Sports

Jim McKay, whose versatility as a television commentator and former newspaper reporter is being put to full use as host and commentator for "ABC's Wide World of Sports," received his first real indoctrination in sports from the Jesuits. As all Jesuit school alumni will testify, there are no bookworms in Jesuit school. In addition to maintaining high scholastic marks, participation in sports is a must — and Jim proved himself outstanding in both. He graduated from Loyola College with an A.B. degree and membership in the Alpha Sigma Nu, the national Jesuit honor society.

McKay's formal career in television began in 1947 when with only three days notice he shifted from the city room of the Baltimore Evening Sun to the paper's new television starting as a broadcaster, writer and production man.

It wasn't long until New York,

past three years and many other sporting events during his 14 years as a broadcaster.

### AIRLINES CUSTOMER

All this combined with "ABC's Wide World of Sports" had made Jim one of the best customers for the airlines. As a matter of fact, more often than not, the best place to interview him is usually in the airline terminal between flights.

"The jet was supposed to liberate man," McKay says. "But it didn't do a thing for me. It just means that I can fly all night and work the next morning."

Golf at St. Andrews, Scotland, surfing championships in Hawaii, or a track meet in Moscow, McKay does them all. He has logged more than 100,000 miles of travel since he first began the "Wide World" tour in 1961.

Recalling his most grueling stint — a 24-hour non-stop appraisal of the famed auto-race at

center which was tabulating the lap by lap results. But I couldn't sleep because the place was air-conditioned and mighty cold."

### MANY EXPERIENCES

He has tasted the haute cuisine of stadium fare in Russia (grey, boiled sausages), used hand signals to make himself understood in France, and shared the mike with a soccer announcer in England.

"British reporters don't describe the game," said McKay. "They give their own personal critique. They'll say, 'Oh, look at that play by so and so,' or 'Bully, what a shot,' or 'unique scoring.'"

His most embarrassing moment occurred at the Moscow airport. Walking toward his homebound plane, the sole on his shoe came apart and made a ludicrous, flapping noise. Amid laughter from several bystanders, a Russian baggage agent motioned him over and repaired it with an ice pick

His apprentice-like duties, in those days, in his own words, were "To run for coffee, wipe celluloid slides, sweep the floor, and drown my bosses with story ideas."

### TV A DECADE AGO

Lee Bowman played the title role in the "Ellery Queen" series. . . . "Candid Camera" was a TV hit. . . . A Chicago poll picked Bishop Fulton Sheen's program as the best one on TV with "I Love Lucy" as second. . . . Milton Berle was re-signed for the following season. . . . Sen. Bing Crosby and Jim McKay, commentators for the ABC-TV network telecast of the "Bing Crosby Golf Tournament" at the famed Pebble Beach golf course, chat at the 18th green.

recognizing his outstanding ability, beckoned him.

In August of 1950, Jim came to New York as head of his own daily variety show, "The Real McKay," which he did for two years on CBS-TV. From that he branched out into special events, public affairs and finally, sports.

A free-lance broadcaster, Jim has covered virtually every sport on radio and television, including track and field, football, bowling, tennis, golf, baseball, boating, all of which plus a number of others are presented on "ABC's Wide World of Sports."

Last year Jim was the anchor-man for the television coverage of the summer Olympics; for the past two years he was the play-by-play commentator for the Ivy League football game of the week; he has done the Orange Bowl and Gator Bowl football games, the Orange Bowl regatta, the Masters golf tournament on TV for the

Le Mans, France, Jim described the occasion:

### MANY PEOPLE CAMP

"At least a quarter million people made camp on the grounds," recalled McKay. "There were carnivals, cheap restaurants, expensive restaurants, and guys running back and forth among the crowd hawking souvenirs. At night, while bands played and the neon lights of concession booths flashed on and off, you could hear the constant and eerie roar of the engines."

"I was in a broadcasting booth with reporters from 14 different countries. Each of us had our own microphone, but with everybody jabbering away together, there was an unnerving sensation of being locked in a cage with a lot of monkeys. Finally, I had a chance to relax. I went outside and found that the temperature had suddenly dropped. So I sought refuge from the cold at the IBM

and wire.

"Which may prove," laughed McKay, "that coexistence can work."

A new character has been added to "The Flintstones." He's known as "Rock Roll" and his voice in the animated series will be that of Jerry Wallace, a rock 'n' roller, popular on the West Coast.

A minimum of four — maybe more — guest appearances will be made next season by the team of Steve Lawrence and Eydie Gorme on the Garry Moore Tuesday night variety hours on CBS-TV.

Approximately 1,000 different songs have been presented on Mitch Miller's "Sing Along" since the NBC-TV series started. There are about 4,000 more songs in reserve in the program's library.

Two extremely opposite types of programs were the most highly rated in the 1962 poll run by the American Council for Better Broadcasts. Winners were Sing Along With Mitch and the Huntley-Brinkley Report, both NBC-TV programs. The poll emphasized the results of other polls held by various organizations recently with most of them coming up with the same results.

Bob Banner, producer of the Garry Moore variety shows Tuesday nights, explains why he believes the series continues to maintain its popularity.

Notes Banner, "We don't try to compete with specials. We try to be a family show and, if ma and pa and the kids like us, that's all we can ask."

Banner points out that TV is an intimate medium and that it's a

A U.S. military spokesman said it was believed the cause of the explosion was a defective stove, but the possibility of a grenade was not ruled out.

## SAW NO LIGHT BEFORE CRASH

VOGHERA, Italy (AP) — A freight train engineer and his assistant say they saw no warning lights but jumped to safety before their locomotive hit the rear of a passenger train Thursday, killing 62 and injuring 70.

One of the injured died Friday, increasing the death toll to 63.

The engineer, Lanfranco Pigani, 27, and Soriano Fabbri, 22, told police their first warning of Italy's fourth major rail disaster in five months came only seconds before impact. They said they set the emergency brake before jumping.

The Italian Transport Ministry said visibility was good and signal lights were working, warning that the Riviera-bound passenger train was stopped in the station, blocking the tracks. Survivors and station employees said they heard no sound of braking before the freight slammed into the express.

Who are the Quakers — and what has made these Friends of, as they call themselves, the Religious Society of Friends, so important a minority in America?

A full-hour story of the Quakers in America, "The Gentle Persuaders," will be presented as a television special on NBC-TV Monday, July 30, from 10 to 11 p.m. EDT, with narration by Drew Pearson, himself a Quaker. The program is produced by NBC News.

Chuck Connors ("The Rifleman") was awarded the National Torch of Hope Award for 1962. Among past recipients of the award have been Alben W. Barkley, Eddie Cantor, Bob Hope, Bert Parks, Ellis Gimbel and, in 1961, Dick Clarke.

## Coast To Coast On Television

Richard Chamberlain (Dr. Kildare) recently made his disk debut with a new ballad, "Three Stars Will Shine Tonight," with music based on the "Dr. Kildare" theme. It is backed up by the standard ballad, "A Kiss to Build a Dream on."

CBS News Correspondent Eric Sevareid has been voted the top broadcasting correspondent by members of the Washington press corps, in a poll published in the initial issue of the "Columbia Journalism Review."

The National Broadcasting Company will present next fall a major hour-long weekly television series especially directed to children between 5 and 11, Robert E. Kinter, president of NBC, announced recently.

In describing the series, which he noted has been in planning for six months, the NBC president said:

"This will be a teaching program, dealing with music, science, history, mathematics and other subjects. We hope to do it with entertaining audio-visual technique and with personalities who will make it a great attraction to youngsters."

Mr. Kinter said the first part of each program in the new series will be designed primarily for children in the 5-7 age group, and the second part for youngsters between 7 and 11.

Johnny Longden, still a jockey at 55, has ridden mounts that earned \$21,118,727 through 1961.

## Any Questions?

Q: Two of my favorite programs will not be back in the fall. How are cancellations determined? — H. L.

A: Mostly by the popularity of a show which is determined by ratings. If a show gets poor rating

the network and sponsor are not happy so they usually cancel out. Incidentally, ratings are determined from phone calls to viewers.

Q: Where can I write to Vincent Edwards ("Ben Casey")? I think he's terrific — Mary K.

A: Write him c/o Bing Crosby

Productions, 9028 Sunset Blvd., Hollywood, Calif.

Q: Is Shelley Fabares who plays Donna Reed's daughter on TV any relation to her? They resemble each other and even talk alike in my opinion. — M. B.

A: They are not related to each

other — only in their TV show.

Q: I recently heard that Rod Serling is taking a job on the faculty of a college. How come? — C. F.

A: Rod thought the change would be good now that his TV show has been cancelled, and he can well afford it as TV writing is very profitable.

The Houston Colts is the only National League team with two catchers. The other nine clubs have three catchers each.
